ILLUMINATED GAMING KEYBOARD

- 7mm MID-HEIGHT KEYCAPS
- N-KEY ROLLOVER
- DETACHABLE PALM REST
- RGB ILLUMINATION

TOP FEATURES

CUSTOMIZABLE RGB LIGHTING

RGB ILLUMINATION

The background lighting of the SKILLER SGK5 can be illuminated in six zones and 16.8 million colors. Various effects are available without requiring the use of the downloadable gaming software.

FEATURES

- Gaming keyboard with RGB backlight illumination
- N-key rollover support
- Anti-ghosting keys
- Gaming software
- Individually configurable key functions
- 3 profile keys and 5 macro, 5 multimedia and 5 lighting keys
- Detachable palm rest
- Gaming mode with disabled windows key
- Function keys with preset multimedia actions
- Arrow keys functions are interchangeable with the WASD section
- Onboard memory for game profiles
- 1,000 Hz polling rate

FULL N-KEY ROLLOVER SUPPORT

Whereas most rubber dome keyboards only feature 2-key rollover support and can detect a maximum of two keystrokes at the same time, the SKILLER SGK5 allows numerous keys to be pressed. This ensures full control in the game, especially during complex maneuvers.

N-KEY ROLLOVER

REMOVABLE PALM REST

For maximum comfort, the SKILLER SGK5 comes with a palm rest, which is magnetically fixed and is easily removed.

FULL CONTROL AT YOUR FINGERTIPS

The SKILLER SGK5 is equipped with 7 millimeter mid-height keycaps, for a quick key response, as well as various easy-to-reach special keys for lighting effects, game profiles, multimedia functions and macros. In addition, two controls on the keyboard allow the convenient adjustment of the volume and the intensity of the lighting.

INTUITIVE GAMING SOFTWARE

The downloadable gaming software allows the full customization of all keyboard functions. Keys can be reassigned or assigned with macros and multimedia commands quickly and easily. Of course, the software also allows the lighting to be adjusted. All these customizations can be organized in practical game profiles
