USB	USB 2.0 Type C (USB charging not supported) for computer and flash drive
Card Slots	Direct: SD, SDHC, or SDXC With adapter (sold separately): miniSD, miniSDHC, microSD, microSDHC, micro SDXC
Power	
AC Compact power adapter	Included
USB-C charging	Not Supported
Battery Pack (optional)	NB-CP2LH (sold separately) Up to 54 prints on a full charge
Dimensions, Weight	
Maximum Outer Diameter x Length	Approx. 7.2" (W) x 2.3" (H) x 5.2" (D)
Weight	Approx. 1.9 Lbs
Paper and paper trays	
PCPL-CP400	Postcard and L size paper cassette (Included)
PCC-CP400	Card size paper cassette (for card size printing)
supported paper sizes	Postcard (4.0" x 6.0") L Size (3.5" x 4.7") Card Size (2.1" x 3.4") Square Label (2.1" x 2.1")
Output tray capacity	up tp 18 sheets

1. Operation can only be guaranteed on a PC with pre-installed Windows 11, latest version of macOS recommended.
2. Requires an Internet connection and the Canon PRINT Inkjet/SELPHY app or SELPHY Layout app, available for free on the App Store and at Google Play. Your device must be connected to the same working network with wireless 802.11 b/g capability as your printer.
3. Based on accelerated testing by Canon in dark storage under controlled temperature, humidity and gas conditions, simulating storage in an album with plastic sleeves. Canon cannot guarantee the longevity of prints; results may vary depending on printed image, display/storage conditions, and environmental factors.
4. Wireless printing requires a working network with wireless 802.11b/g 2.4ghz compatibility. Wireless performance may vary based on terrain and distance between the printer and wireless network clients.
5. AirPrint functionality requires an iPad, iPhone 3GS or later, or iPod touch 3rd generation or later device running iOS 4.2 or later, and an AirPrint-enabled printer connected to the same network as your iOS device. A printer connected to the USB port of your Mac, PC, AirPort Base station, or Time Capsule is not supported.
