MAPPABLE BUTTONS BOUTONS ASSIGNABLES

The MODE Button and Mappable Wheel can be assigned to a new function based on your gaming style. To change the button's assignment, follow these steps:

The button of MODE et la molette assignable peuvent être assignés à une nouvelle fonction selon votre style de jeu. Pour changer la fonction du bouton, suivez ces étapes :

- Download the Turtle Beach Audio Hub mobile app on your iOS or Android device.
- Enable Bluetooth on your selected device, and use the Bluetooth pairing method to access the app.
- After pairing, open the app and swipe to the second settings screen to assign new functions. Une fois l'appariage effectué, ouvrez l'application et faites glisser jusqu'au deuxième écran des options pour assigner de nouvelles fonctions.
- Once selected, your headset will save this configuration. Une fois la configuration sélectionnée, votre casque la sauvegardera.

ProSpecs™ Glasses Relief System Système spécial lunettes ProSpecs™

For those who game with glasses, adjust the ProSpecs™ Glasses Friendly System for added comfort.

Le système ProSpecs™ a été conçu spécialement pour garantir aux joueurs qui portent des lunettes un confort accru.

EN Depending on the size of your glasses frame, use the tab adjustment to create the appropriate sized channel in the ear cushion. By default, the adjustment tab is set to the shallowest setting. To increase the size/depth of the channel in the ear cushion, simply pull the tab and attach it to the post based on your preference.

FR Utilisez la languette de réglage pour créer et ajuster l'espace nécessaire correspondant à la taille de vos lunettes. Par défaut, la languette propose le plus petit réglage possible. Pour augmenter la taille ou la profondeur nécessaire, tirez tout simplement la languette et fixez-la en fonction de vos préférences.

EN The ProSpecs™ Glasses Relief system creates a channel in the ear cushion to help reduce pressure on your glasses frame. To adjust this, you must first remove the ear cushion. Hold the ear cushion firmly and pull it away from the speaker. The ear cushion should come off with minimal effort.

FR Le système spécial lunettes ProSpecs™ réduit la pression exercée sur les montures. Pour l'utiliser, vous devrez tout d'abord retirer les coussinets. Tenez fermement le coussinet et détachez-le de l'écouteur, ce qui ne devrait pas nécessiter trop d'efforts.

Regulatory Compliance Statements for the Stealth™ 700X Gen 2 MAX

Model: Stealth700X-MAX-RX and Stealth700X-MAX-TX

Local Restrictions on Radio Usage
Caution: Due to the fact that the frequencies used by wireless devices may not yet be harmonized in all countries, these radio products are designed for use only in specific countries, and are not allowed to be operated in countries other than those of designated use. As a user of these products, you are responsible for ensuring that the products are used only in the countries for which they were intended and for verifying that they are operated with the correct selection of frequency and channel for the country of use. Any deviation from the permissible power and frequency settings for the country of use is an infringement of national law and may be punished as such.

To determine whether you are allowed to use your wireless network device in a specific country, please check to see if the radio type number that is printed on the identification label of your device is listed in the manufacturer's Regulatory Guidance document at the following www.turtlebeach.com/nomologation or contact Turtle Beach directly.

Federal Communications Commission (FCC) Compliance Notice
This section includes the following FCC statements for the Stealth700X-MAX-RX and Stealth700X-MAX-TX:
• FCC ID: X08-27990X & X08-27991X
• RF Radiation Exposure & Hazard Warning
• Class B Interference Statement
• Non-Modification Statement

Class B Interference Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio TV technician for help.

FCC Caution
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Radiation Exposure & Hazard Statement
To ensure compliance with FCC RF exposure requirements, this device must be installed in a location such that the antenna of the device will be greater than 2 cm (0.8 in.) from all persons. Using higher gain antennas and types of antennas not covered under the FCC certification of this product is not allowed. Installers of the radio and end users of the product must adhere to the installation instructions provided in this manual. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

Non-Modification Statement
Use only the supplied internal antenna. Unauthorized antennas, modifications, or attachments could damage the Stealth700X-MAX-RX and Stealth700X-MAX-TX and violate FCC regulations. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. Please contact Turtle Beach for a list of approved 2.4 GHz antennas.

This product is compliant with the Consumer Product Safety Improvement Act of 2008, Public Law 110-314 (CPSIA)

Canadian ICES Statements Déclarations relatives au respect de la réglementation canadienne

This device complies with ICES-003 and RSS-247 of Industry Canada. Operation is subject to the following two conditions:
1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme aux normes NMB003 et CNR-247 d'Industrie Canada.
1. L'utilisation de cet appareil est autorisée seulement aux conditions suivantes:
2. Il ne doit pas produire de brouillage (l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif).

To prevent radio interference to the licensed service (i.e., co-channel Mobile Satellite systems) this device is intended to be operated outdoors and away from windows to provide maximum shielding. Equipment by its transmit antenna that is installed outdoors is subject to licensing and not supported by Stealth700X-MAX-RX and Stealth700X-MAX-TX.

Pour éviter les interférences radio au service agréé (i.e., des systèmes par satellite mobile co-canal), cet appareil est destiné à fonctionner à l'extérieur et à l'écarteur des fenêtres pour assurer un blindage maximal. L'équipement (ou son antenne) d'émission (à l'extérieur) installé à l'extérieur est soumis à l'octroi de licences et n'est pas pris en charge par les modèles Stealth700X-MAX-RX et Stealth700X-MAX-TX.
