With a pair of Goldtouch Wrist Rests you can upgrade the comfort of your workspace. Keyboards are essential in today's workplaces and there's no better way to keep your wrists, joints and overall health intact than the Goldtouch Wrist Rests. They will keep you typing the day away in comfort. The Goldtouch Wrist Rests are made from smooth Lycra and durable gel and guarantee a nice feel on your skin.

### **Ergonomic background**

When working with a keyboard and mouse it is important that the arm is sufficiently supported. A wrist support helps to keep the wrist straight during typing and can be used "to rest" for a moment during one's work. Holding your wrist at the right height when typing is important. It must be kept as straight as possible with the keyboard. This keeps the wrist posture neutral and avoids muscle strain.
