## Beschreibung

HPE Aruba - SFP+-Transceiver-Modul - 10GbE - 10GBase-LRM - SFP+ / LC Multi-Mode - bis zu 220 m - für HPE Aruba 2530, 2920, 2930M 24, 3800, 3810M 40, 3810M 48, 6200M 24, MACsec Advanced Module

## Hauptmerkmale

|                               |                                                                                                                                                                                                                      |
