Article Numbers: 36950, 36949, 36948, 36947, 36946, 36945, 36944, 36943, 36942, 36941, 36940, 36939, 36938, 36937, 36936

Safety Instructions:

- Do not exceed the maximum load capacity: 40 kg per joist, maximum 2 joists per shelf. (Do not exceed the maximum load capacity of 80 kg per shelf)
- Ensure that the load capacity of 40 kg per joist and 80 kg per shelf is not exceeded in order to avoid overloading and damage.
- Follow the safety instructions for installation and use to avoid improper use.
- Before installation, check all tools and materials to ensure that they are suitable.
- Mount the product on a stable and level surface to prevent it from tipping over.
- Ensure safe and stable assembly of shelves and shelving to prevent tipping or falling.
- Regularly check the stability of the shelf dividers and shelves.
- Avoid the risk of injury through careful installation and correct use.
- Smaller parts and sharp edges must be checked to minimise the risk of injury and should be kept out of the reach of small children.
- Pinch protection: When using sliding shelf dividers, ensure that no parts of the body become trapped.
- Remove packaging materials and any hazardous parts before using the product.
- Do not use the product in damp environments or near hot surfaces to avoid damage.
- Only install and use the product in accordance with the enclosed instructions.
