Article Numbers: 22728, 22727, 22636, 150773, 150768

Safety Instructions:

- Ensure that the cabinet is placed on a stable and level surface to prevent it from tipping or falling over.
- Do not use the cabinet in humid environments or at extreme temperatures to prevent corrosion and other damage.
- Ensure that the door is properly closed and the cabinet is properly installed to ensure hygiene and safety standards.
- Carry out regular inspections and maintenance to avoid sharp edges, other hazards or damaged locks.
- Keys should be kept in a safe place to prevent unauthorised access.
- Not suitable for the storage of flammable or hazardous materials.
- Regular cleaning and disinfection are necessary to ensure hygienic standards, especially in the food industry.
- Take care not to place excessive loads on the adjustable shelves and observe their load-bearing capacity.
- Avoid using sharp or hot objects to prevent damage to the surface.
- Use the cylinder lock for secure storage of valuable items.
