Safety Instructions:

- Use with caution; product can be heavy and cause injury if handled improperly.
- Do not use a direct source of fire in the vicinity; wood material can be flammable.
- Ensure that the surface is stable and securely mounted to prevent it from tipping over or slipping.
- Protective gloves are recommended during installation to prevent injuries from sharp edges.
- Assembly instructions must be followed to ensure safe use of the shelf.
- The load-bearing capacity of the shelf must not be exceeded.
- Do not allow children to play near the product to avoid injury.
- When using the shelf on workbenches, the substructure must be stable.
