### Safety Instructions:

- Only use the stepladder on stable and level surfaces.
- Do not overload the stepladder - maximum load capacity is 150 kg.
- Step into the correct position when using to avoid the risk of tipping over.
- Ensure that the brake rollers are activated during use and are regularly checked for proper functioning.
- Do not use the stepladder as a comfortable piece of furniture.
- Small children must not use the stepladder as there is a risk of suffocation and it should be kept out of reach of children.
- Children should only use the stepladder under adult supervision.
- Check the stepladder regularly for damage and wear and tear and check all parts for damage before use.
- Do not move the stepladder during use.
- Do not carry out any work with the stepladder in the vicinity of power lines or electrical installations.
- Before use, ensure that the stepladder folds and locks correctly.
