Safety Instructions:

- Risk of falling if the ladder is used incorrectly. Check the ladder for damage and stability before use and only use on a stable, level surface.
- Do not exceed the maximum weight capacity. Example: no simultaneous use from both sides of the ladder that can be used on one side.
- Do not use the ladder in wet, slippery or windy conditions.
- The ladder is not suitable for use in direct contact with electrical cables. Wear personal protective equipment such as a helmet and non-slip shoes.
- Choking and fall hazard for children: Keep out of reach of children and avoid walking near the ladder.
- Regularly check the ladder for damage or wear. Use the handles when climbing up and down for a better grip.
- Only use the ladder in the intended area of application in accordance with the instructions for use in the operating instructions.
- Keep the shelves free of tools and objects during use.
- Follow the instructions in the operating instructions and all safety information when using the appliance.
