Safety Instructions:

- When using the ladder, always ensure that it has a stable base, is positioned on a level and firm surface and that it is standing on a stable, level surface.
- Only use the ladder on solid walls and in a vertical position.
- Wear suitable personal protective equipment, long clothing and sturdy shoes.
- Do not exceed the maximum standing height as indicated by the red rung.
- Fully tighten the locking device before use and check the automatic drop hook lock.
- Check the ladder regularly for damage, check for visible damage before use and do not use if there are visible defects.
- Do not work overhead to minimise the risk of falling.
- Read the operating instructions before use and ensure that all instructions are followed. Only use the ladder in accordance with the operating instructions.
- Observe the maximum load on the ladder and do not overload the ladder.
- Before descending, ensure that the steps are stable and that the feet do not slip. Before descending, ensure that both feet are securely on the ladder.
- Only one person on the ladder at a time.
- Do not set up the ladder near electrical cables.
- Deny children access to the ladder.
