Article Numbers: 97735, 97734, 97733, 97732, 97731, 97730

Safety Instructions:

- The load capacity of 1600-4000 kg should not be exceeded.
- A gradient of 12.5 % must not be exceeded.
- Rubber pads are provided to prevent slipping on the underside and must be fitted correctly and checked regularly for damage.
- Use on slippery surfaces should be avoided, especially in wet or slippery conditions.
- The bridge is not suitable for use in extreme weather conditions.
- Avoid sudden movements while the bridge is in use.
- Use only with suitable vehicles that do not exceed the load capacity.
- Wait on a level surface to avoid accidents and only operate the appliance on such surfaces.
