Article Numbers: 96728, 96727, 96726

Safety Instructions:

- Ensure a maximum load capacity of 500 kg. Avoid overloading.
- Check the stability of the table trolley before use. Use the trolley on a stable surface to prevent it from tipping over.
- Check wheels regularly for mechanical function and safety. Castors must function properly.
- TPE tyres ensure safe handling. Use wheel brakes for additional stability. Use required in accordance with the EN 1757-3 standard.
- Instruct users not to move the trolley over uneven floors or stairs to avoid falls or accidents.
- Ensure that no loose or unsecured loads are transported. Transport heavy goods safely and evenly on both levels.
- Children should be kept away from the tool to avoid injury. Do not allow unauthorised persons in the area of the tool.
- Improper use can pose a serious risk to safety. Observe the safety regulations in accordance with EN 1757-3.
- Only use the table trolley in accordance with the instructions and safety guidelines provided.
- Clean the table trolley regularly to ensure safety and hygiene.
