### Safety Instructions:

- The load capacity of up to 200 kg must not be exceeded in order to ensure stability and safety.
- The swivel and fixed castors must be checked regularly to ensure that they are in good working order in order to prevent accidents.
- The table trolley should only be used on level surfaces to prevent it from tipping over.
- When loading and unloading the trolley, care should be taken to ensure that the weight is evenly distributed.
- Suitable protective gloves must be worn to prevent injuries when handling heavy loads.
- Do not overload the trolley or push it carelessly to reduce the risk of falling or injury.
