Safety Instructions:

- Make sure that the NT box is mounted on a stable surface to prevent it from falling over.
- Avoid contact with moisture or water to minimise electrical hazards.
- Before installation, check that all electrical connection cables are intact and undamaged.
- Ensure that all doors and access points close properly to prevent accidents during access.
- The product should not be used by untrained personnel; only trained personnel may install or repair it.
- Please read the instructions for use and all safety instructions carefully before using the product.
- Viewing door made of toughened safety glass: Risk of glass breakage if handled incorrectly.
- Cable management requires special care: risk of tripping hazards.
- Screwless design can lead to mechanical risks if not mounted correctly.
- Use in an unventilated environment may present a risk of overheating.
- Not suitable for children: Risk of injury from sharp edges and small parts.
- The product should be installed in accordance with the applicable safety regulations.
- Take care of your fingers when opening the doors to avoid crushing them.
- Avoid attaching heavier appliances in the upper area to prevent them from tipping over.
- The cable entries must be carefully sealed to prevent the ingress of dust or water.
- The instructions must be read carefully before self-assembly.
- Suitable tools must be used during installation to avoid injuries caused by improper handling.
- The product should only be installed and maintained by qualified personnel.
- The product is suitable for use in dry indoor areas; avoid wet conditions.
- Ensure that the housing does not generate excessive heat, especially for electrical components.
- Unsuitable for use by children without adult supervision to prevent injury from improper use.
- Read the installation instructions carefully to avoid incorrect installation.
