Safety Instructions:

- The table trolley may only be loaded with the maximum load capacity of 120 kg in order to avoid structural damage or dangerous situations.
- Make sure that the castors are not blocked before moving the trolley to avoid tipping over or injury.
- Only use the table trolley on a firm, level surface and avoid irregular or slippery surfaces.
- The use of gloves can facilitate the safe transport of goods.
- Ensure that children do not play with the table trolley, as there is a risk of it tipping over or crushing.
- Carefully read and understand the safety instructions for using the trolley before assembly and use.
