Safety Instructions:

- Sharp blades; precautions necessary when replacing and handling to avoid cuts.
- Product is heavy; risk of injury if handled incorrectly.
- Keep out of reach of children; danger of suffocation due to small parts or packaging material.
- Read the operating instructions and safety information carefully before first use.
- Use only for the intended materials and applications; non-toxic materials recommended.
- Only operate the product in open and well-ventilated areas to prevent overheating or dust accumulation.
- Install the machine on a stable, level surface to minimise the risk of it tipping over or falling.
- Product is designed for castors weighing up to 100 kg; avoid overloading.
- Not suitable for persons without appropriate training or experience in handling cutting machines.
- Children should be kept away from the appliance and the blade mechanisms.
- Check blades regularly for damage and replace if necessary.
- Wear suitable personal protective equipment (PPE) during use.
- Ensure that all safety instructions for operation and maintenance are provided and observed.
- Protect the product from direct sunlight and moisture.
