Safety Instructions:

- Use a cylinder lock and keep it tamper-proof to prevent unauthorised access.
- Protect the product from moisture and direct sunlight to prevent material damage and rust formation.
- Fix the wall properly and ensure that the wall plugs and screws correspond to the load-bearing capacity to prevent the cabinet from falling.
- Take care when handling as edges and corners can be potentially sharp.
- Ensure stability and correct fastening to prevent the product from tipping or falling over.
- Do not place the box within reach of children and keep children away to avoid injury or misuse.
- Do not allow children access to keys to prevent unauthorised access.
- Use the product exactly as instructed and contact the manufacturer immediately in the event of problems.
- Use of robust sheet metal to minimise damage.
- Hook strips adjustable in 10 mm increments for secure key storage.
- Use the product in environments where safety is important.
- Keep the cabinet closed to avoid accidental openings and possible risks.
