Safety Instructions:

- Make sure that the filing cabinet remains secure and cannot tip over.
- If used incorrectly, the door can be damaged if it is pulled too hard.
- The security lock protects the contents, but digital security measures should also be considered.
- For maximum safety, only the instructions for use described in the manual should be followed.
- Fire protection: filing cabinet offers protection against fire.
- Security cylinder lock: Protect against unauthorised access.
- Protection against breaking open: Rear gripper to protect against breaking open.
- Instructions for use in the manual must be followed carefully to ensure safety.
- Ensure that the product complies with the relevant safety standards.
