Safety Instructions:

- Always keep the cabinet locked to prevent unauthorised access to medication.
- Ensure suitable ventilation of the cabinet to guarantee the integrity of the medication.
- Make sure that the cabinet is placed on a stable surface to prevent it from tipping over.
- When mounting on the wall, ensure that all necessary safety precautions are taken.
- Regularly check the contents of the cupboard for shelf life and completeness, and the need to replace expired items.
- Use personal protective equipment (medical gloves) when handling the contents to avoid the risk of contamination.
- Keep the cabinet dry and clean to ensure the quality of the medication.
- Dispose of expired medication and materials in accordance with local regulations.
- Provide instructions for the safe handling and use of medical materials.
- Users should be informed about the proper disposal of medical waste.
- Observe the hygiene regulations when storing and using materials.
