Please note the technical data of the products!

Article Numbers: 90741, 90706, 90705, 90704, 90703, 90702, 90701, 90700

Safety Instructions:

- Be aware of the risk of crushing when adjusting the height and exercise caution to minimise the risk.
- Ensure that the table is stable and is not overloaded or set above its maximum height.
- Ensure that electrical components are installed correctly to avoid the risk of electric shock.
- Do not place objects on the edges of the table to avoid the risk of tipping and to ensure sufficient stability.
- There is a risk of injury from sharp edges or corners - use suitable protective measures.
- The maximum load capacity must not be exceeded in order to avoid stability problems.
- Ensure that the table is placed on a stable, level surface to minimise the risk of tripping and tipping over.
- Sufficient distance from other furniture is important to avoid tripping hazards.
- The product is intended for adults and children should be supervised when in the vicinity.
- Be aware of the risk of suffocation due to improper use of the height-adjustable mechanism.
- Avoid use in the event of improper installation in order to rule out health risks.
- Follow the assembly instructions carefully to avoid damage and instability during assembly.
- The table height can be adjusted between 650 mm and 900 mm. Ensure a stable stand when adjusting.
- Regularly check the stability of screw connections and the height adjustment.
- Risk of electric shock due to improper connection of electrical appliances.
- Observe safety precautions to protect children, they may be in the vicinity.
- The table should be used on a stable, solid surface to avoid the risk of it tipping over.
- The product is TÜV-certified and GS-tested. Regular inspection for damage is required.
- Keeping the products clean is recommended to ensure safe use.
- Note: Ensure use of the table in accordance with the instructions and guidelines provided.
