Safety Instructions:

- Make sure that the container is not overloaded, as the load capacity is 200 kg.
- Avoid stacking containers when they are filled with heavy materials to prevent them from tipping over.
- If used in the food sector, ensure that all materials are approved and suitable for contact with food.
- Use at temperatures below -40° C or above +60° C can impair the stability of the container.
- Ensure that all castors are working properly to ensure safety during transport.
