Please note the technical data of the products!

Article Numbers: 90066, 90065, 90064, 90063

Safety Instructions:

- The product must be kept away from children to prevent injuries caused by improper handling.
- Before use, ensure that the product is properly earthed to avoid electrostatic discharge.
- Conductive drawers are not suitable for storing flammable materials.
- If the earthing cable is damaged, stop using the appliance immediately and contact a specialist or the manufacturer.
- The product must not come into contact with water or moisture in order to avoid electrical hazards such as short circuits.
- Do not overload drawers to avoid damage or injury from falling parts.
- Only use the product on stable and safe surfaces to minimise the risk of it falling over.
- Do not use the product in an environment that is not suitable for electrostatic discharge (ESD).
- If used incorrectly, there is a risk of injury due to crushing on drawer units.
- Ensure that the product is used in accordance with the European safety standards for ESD protection.
