**E-Mail:** info@schaefer-shop.de

Please note the technical data of the products!

**Article Numbers:** 157010, 157007

### Safety Instructions:

- Only place safe products on the market.
- Observe product features and technical properties to minimise risks.
- Provide clear labelling with warnings and safe use instructions.
- Take particular care when using products by vulnerable consumers, especially children.
- Carry out regular risk analyses and provide technical documentation.
- Ensure that products bear a type, batch or serial number or that this information is available on the packaging.
- Ensure that the load capacity of the drawers (max. 80 kg) is not exceeded in order to avoid injuries.
- Only use the drawers for their intended purpose. Improper use can lead to damage or accidents.
- To prevent the drawer cabinet from tipping over, it should be placed in a stable position and secured to the wall if necessary.
- The edges and corners of the drawer unit can be sharp. Be careful when handling and opening the drawers.
- Keep children away from the drawer cabinet, as there is a risk of crushing, especially when closing the drawers.
