Article Numbers: 94356, 94355, 138342, 138341, 138340, 138339, 138338, 138337, 138336

Safety Instructions:

- Make sure that the waste bin is stable on a level surface to prevent it from tipping over.
- The waste bin should not be overfilled to prevent leakage and damage.
- Ensure that there is no hazardous waste or sharp objects in the waste bin during emptying to avoid injury.
- Hold the waste bin firmly when the rear opening is used for emptying to prevent it from slipping.
- Only use the waste bin for its intended purpose; the product is suitable for outdoor use but must not be exposed to extreme weather conditions.
- Not suitable for children under 3 years due to choking hazard from small parts and sharp edges.
- If handled incorrectly, the weight of 8.75 kg can lead to injuries; take care when lifting and transporting.
- Regular maintenance and cleaning are necessary to increase the service life of the product and minimise safety risks.
- Avoid contact with sharp edges or corners to prevent cuts.
- The waste must be processed and disposed of in accordance with local regulations.
- Protect from damage in frosty outdoor areas.
- Long-term exposure to the weather can affect the material properties.
