Safety Instructions:

- Only use the product for mounting between the uprights of the table superstructure.
- Do not exceed the adjustable height and inclination to ensure stability.
- If used incorrectly, the product may tip over and cause injury.
- Storage boxes are not included and must be purchased separately.
- Observe ESD protection and ensure that the environment meets the ESD protection requirements.
- Ensure that the installation instructions are followed carefully to avoid accidents.
- Keep the product out of the reach of children to prevent injury.
- Boxes should not be subjected to excessive loads to prevent them from tipping over or breaking.
- Regularly check the stability of the assembly and the components used.
- Only use the product for its intended purpose and in accordance with the manufacturer's instructions.
- Product should only be installed by qualified personnel.
- During installation, ensure that all parts are correctly and securely attached.
- Only use the product in the specified manner and environment.
- Regularly check the stability and condition of the product.
- Smaller parts or edges could cause injuries, so take care when handling.
- Product is not suitable for use in damp or wet environments.
- Does not contain any electrical components, but should be handled in accordance with ESD regulations.
