Safety Instructions:

- Caution: Sharp edges can cause injuries. Wear suitable protective gloves during installation and ensure that all sharp edges do not pose a risk.
- The product is not suitable for use by children. Ensure that children do not have access to the fastening elements.
- Regular inspection for damage is recommended to ensure stability. Pay attention to abrasion and corrosion of the material.
- Observe safety precautions when setting up to avoid tipping over. Ensure that the installation is stable to prevent the parking bracket from tipping over.
- In extreme weather conditions (e.g. storm, frost), take care of the product to avoid damage.
- Ensure that the parking bracket is stable and securely anchored in the floor to prevent injuries. Use suitable anchor types according to the surface.
- Include instructions for the safe installation and use of the parking bracket. If necessary, provide instructions on how to handle the lock correctly to prevent damage.
- Attach appropriate warning notices in the event that the parking bracket is installed near traffic areas.
- Prevent damage caused by vandalism, for example through additional security measures.
- Attention: Observe the safety instructions and install the product according to the instructions.
- Avoidance of injuries: Do not use the product improperly or outside its intended use.
- Safety features: Reflective surface to improve visibility.
- Weight note: Due to the weight (12.5 kg), proper handling and assembly is required.
