Please note the technical data of the products!

Article Numbers: 90080, 90079, 90078, 90077, 90076, 90075, 90074, 90073

Safety Instructions:

- Choking hazard due to improper handling of small parts, especially in the vicinity of electrical components. Not suitable for children under 3 years of age.
- Risk of electric shock due to improper use of the electrical earthing points. Ensure that the earthing cable is connected correctly. Avoid using or damaging electrical earthing in wet or damp environments.
- Weight risk if the worktable is overloaded beyond the recommended load capacity of 300 kg. Only use the worktable within the specified load capacity.
- Ensure that the product is only used on stable surfaces and is positioned correctly before use to avoid the risk of it falling over.
- The height adjustment should only be carried out by qualified personnel using the appropriate tools and in accordance with the instructions. Proceed with caution when adjusting the height to avoid injury.
- Users should observe ESD protection measures when working with electronic components. Regularly check the earthing connections to maintain ESD safety.
- Ensure that no loose parts or materials remain on the surface of the table to avoid tripping hazards.
- Avoid using sharp or pointed objects that could damage the surfaces.
- Ensure that the appliance is used under supervision to avoid accidents.
- Notes on ergonomic use for adjustment heights from 650 mm to 900 mm.
