## ESD workbench with shelf TRESTON TPH

**Manufacturer/Responsible Person:** Treston Deutschland GmbH, Friedrich-Ebert-Damm 143, 22047 Hamburg, Deutschland  
**E-Mail:** info.de@treston.com

Please note the technical data of the products!

**Article Numbers:** 90085, 90084, 90083, 90082, 90081

### Safety Instructions:

- Risk of suffocation from small parts, especially when working with electronic components.
- Risk of overloading due to improper use with a load capacity of up to 300 kg. Do not exceed the load capacity of the table frame (max. 300 kg on the worktop, max. 50 kg on the shelf board) to ensure stability and safety.
- Risk of electric shock due to incorrectly connected electrical devices or improper use of electrical components. Ensure that all electrical components are in good condition.
- Ensure that the work table is stable in use to prevent injuries from falling over or wobbling.
- To avoid injury, the table may only be adjusted in height by a suitable person in accordance with the instructions and when the appliance is switched off. Ensure that the table is ergonomically adjusted.
- Use the ESD coating and measures to ensure the safety of sensitive electronic components and reduce the risk of electrostatic discharge. Regular inspection is recommended.
- Avoid using the table in damp environments to prevent rust or other damage.
- Attention: Treston ESD workbench is designed for commercial use only.
- Read and follow the instructions carefully before installation and use.
- Ensure that the table surface and work surface are clean and free from damage or static charges, especially when handling electronic components.
- Carry out regular inspections and maintenance to guarantee the long-term safety of the product.
- Only use ESD-safe tools and materials for handling sensitive electronic components.
- Wear protective gloves and protective clothing to avoid skin and eye injuries.
- Do not handle the worktop with sharp objects or chemical substances to prevent damage to the ESD coating.
- Instructions for proper disposal of the product in accordance with local regulations.
