Safety Instructions:

- The ladder may only be used on level, stable surfaces.
- Avoid the risk of falling over: Ensure that the ladder is in the correct position.
- Observe the maximum load capacity: Do not overload.
- Always work in pairs when the ladder is set up to carry out safety checks.
- The safety catch joints must always be fully engaged before the ladder is used.
- Do not use the ladder in wet or slippery conditions.
- The ladder must be checked for damage or wear before each use.
