Article Numbers: 45969, 45968, 45966, 45965

Safety Instructions:

- Not suitable for work requirements that require ESD protection measures.
- Ensure that the floor grating is placed on a smooth and stable surface to prevent it from slipping.
- Regularly inspect the steel cables and threaded bolts for damage or fatigue to ensure the stability of the product.
- Avoid contact with aggressive chemicals that could affect the material integrity.
- Never overload the product or use it for purposes other than those for which it is intended.
- There is a risk of slipping if the floor grille is not installed correctly on a level surface or is damaged.
- Oil and chemical resistant: When used in environments with hazardous substances, ensure that these do not leak.
- Cut shape: Make sure that the cut edges of the floor grating do not pose a risk of injury.
- High safety standards: Observe the instructions for use to ensure safety during use.
