Safety Instructions:

- Make sure that the ladder is standing on a firm, stable and non-slip surface to prevent it from tipping over.
- Avoid overloading the ladder; observe the maximum load capacity and do not use it with several people at the same time.
- To minimise the risk of falling, do not use the ladder in strong winds or bad weather.
- Always hold the upper part of the ladder with both hands and keep one hand free so that you can always hold on.
- Avoid standing on the top rung or using it as a seat.
- Carry out regular safety checks on the ladder to detect damage or signs of wear.
- Carefully follow the manufacturer's instructions for assembling and using the ladder.
- Only use the ladder for its intended purpose and not for dangerous or unstable work.
- Keep the ladder out of the reach of children and supervise small children when using it.
- Avoid using the ladder in the vicinity of electrical cables to prevent electric shocks.
- Wear protective clothing when using in industrial environments.
- Avoid the use of alcohol or drugs before or during use of the ladder.
- Make sure that the ladder is fully extended and locked in place before using it.
- Make sure that the rungs are free of dirt and oil to prevent slipping.
