### Safety Instructions:

- Ensure that all connections between the shelves are correct and stable to avoid the risk of tipping over.
- Before assembling, check all parts for damage to prevent injury.
- Wear suitable personal protective equipment (e.g. gloves) to avoid injuries during assembly.
- Observe the maximum permissible load of the shelf to avoid overloading and possible damage. With heavy loads, ensure that the maximum load limits of the shelving unit are not exceeded.
- Attach spacers correctly and stably, fasten firmly and stably to prevent instability and tipping of the shelves.
- Follow the user instructions to ensure safe assembly and use of the shelves. They should be used in accordance with the assembly and safety instructions.
- Regularly check spacers for damage and replace damaged parts immediately.
- Only install and operate the shelf in accordance with the intended instructions for use.
- Only use the recommended accessories and spacers to ensure safety.
- Keep the product and smaller parts that could be used separately out of the reach of children to minimise the risk of injury.
