Safety Instructions:

- Ensure that the product has been manufactured in accordance with the applicable safety standards for steel products.
- Only use spacers in accordance with the manufacturer's instructions.
- Attach instructions for safe use and installation of the spacer.
- Use suitable tools for installation.
- Ensure the stability of shelving systems.
- Do not use for unintended applications.
- Regularly check for damage or wear.
- The spacer may only be fitted by trained specialists.
- Ensure that the spacer is correctly installed.
- In the case of galvanised steel, check edges and surfaces for risk of injury.
- Do not exceed the maximum load of the shelf.
- Only use according to specifications and instructions.
- Wear protective clothing during installation.
- Mount the spacer using suitable means.
- For double-sided rows of shelves, use two spacers per push-through protection.
- Avoid overloading the shelf.
- Keep the product out of the reach of children.
- Ensure correct processing and installation of the spacer.
