

Product Safety Information

Assembly steps, with aluminium grating steps

Manufacturer/Responsible Person: Krause-Werk GmbH & Co. KG, Am Kreuzweg 3, 36304 Alsfeld, Deutschland

E-Mail: info@krause-systems.de

Please note the technical data of the products!

Article Numbers: 95471, 95470, 95469, 95468, 95467

Safety Instructions:

- Use only for the intended purpose.
- Do not exceed the maximum working height.
- Check for stability and safe standing before use.
- Ensure that the assembly step is not overloaded and observe the maximum working height and load capacity.
- Only use the assembly step on stable, stable and level surfaces.
- Ensure that steps are clean and dry to avoid the risk of slipping and take suitable measures to prevent slipping.
- Do not use an assembly step if it is damaged or defective.
- Keep out of the reach of children to prevent accidents (observe child safety lock).
- Wear suitable safety shoes to minimise the risk of injury.
- Observe the safety precautions for electrical applications.
- Avoid use in poor lighting conditions.
- Use by adults only.
- When ascending and descending, always hold on tight and move slowly.
- Observe the TÜV/GS test; nevertheless check regularly for damage or wear.
- Regularly check the anti-slip properties of the grating steps for wear.
