Safety Instructions:

- Connect an earthing cable to avoid static electricity and be aware of the danger of electrically conductive components.
- Make sure that small parts do not get into the hands of children to avoid the risk of choking. The product is not suitable for children and should be kept out of their reach.
- Use personal protective equipment (PPE) when working in environments where electrical discharges are possible.
- Beware of sharp edges of the galvanised steel to avoid injury.
- Improper use may result in hazards from electrical components. Beware of electric shocks due to improper use of electrical components.
- Ensure that the product is used in accordance with the applicable safety standards. The manufacturer must guarantee product safety in accordance with these standards.
- Please read the operating instructions carefully and observe all safety information.
- The product is only safe if the instructions for installation and use are followed.
- The product may only be used for its intended purpose. Further use in a risk context is not recommended.
