Please note the technical data of the products!

Article Numbers: 82302, 82301, 82300, 82299, 82298, 82297, 175301, 175299

Safety Instructions:

- Product is not suitable for direct contact with food.
- Check the packaging for damage before use.
- Keep out of the reach of children to avoid the risk of choking on small parts.
- There is a risk of injury and a risk of ignition in the vicinity of heat sources if handled incorrectly.
- Do not use the cable protection conduit in damp environments or near hot surfaces to avoid electric shocks and damage.
- Only use in combination with suitable cables and lines to minimise safety risks and ensure compatibility.
- Regularly check the condition of the product for cracks or damage.
- The cable protection conduit should only be used in accordance with applicable standards.
- The protective conduit must not have any sharp edges during installation.
- Do not use for direct contact with electrical cables.
- For electrical use, use only in a dry environment and ensure that cables are properly insulated.
- Please use the supplied mounting tool to ensure proper installation and protection against injury.
- Keep the cable protection conduit away from water and other liquids to prevent damage.
