Safety Instructions:

- Not suitable for direct contact with food.
- Caution: Small parts that may pose a choking hazard for small children. Not suitable for use by children under 3 years of age.
- The labels are not suitable for use in areas with aggressive chemicals. Avoid contact with strong chemicals that could damage the material.
- When used in extreme temperatures, the labels should be monitored for possible material changes. Please protect the labels from moisture and extreme temperatures to ensure durability. The labels are suitable for temperature resistance in the range from -40°C to +150°C.
- Avoid direct sunlight and high temperatures to prevent discolouration.
- Read the enclosed instructions for safe use and storage. All relevant safety warnings and instructions must be observed for the safety and use of the product.
- Take care not to overload the printer when using the labels. Avoid inhaling vapours when printing, use the printer in a well-ventilated room. When using a laser printer, the printer's safety instructions should be observed. Do not use hot foils or adhesives when printing on the labels to avoid burns.
- The product should not be used near open flames or sources of intense heat to avoid damage. Do not store near fire or heat sources.
- The product may lose its properties if used improperly or stored incorrectly. In the event of injury or damage caused by improper use, the liability exclusions must be observed.
- Avoid contact with sharp objects to prevent damage.
- Keep the labels away from children to minimise the risk of inhaling small parts.
