Article Numbers: 153930, 153931

Safety Instructions:

- Maximum surface load for the support spars: 50 kg.
- Use only for intended materials to avoid injury.
- Keep hands and body away from the blade while it is in operation.
- Store and use highly flammable materials at a safe distance from the cutting area.
- Working height of 850 mm is optimised, users should be of suitable height.
- Safe handling of the cutting device recommended.
- Do not exceed the maximum load of the worktop: 100 kg.
- Ensure that unwinding devices for heavy castors are correctly installed.
- Chemical substances can trigger allergies; discontinue contact if there are signs of allergies.
- Use under the supervision of trained personnel is recommended to minimise the risk of injury.
