Article Numbers: 153932, 153933

Safety Instructions:

- Ensure that the packing table is on a level surface to prevent it from tipping over.
- The maximum load capacity of the packing table is 100 kg. Overloading can lead to instability. Avoid exceeding 100 kg.
- Only use the unwinding device for approved castors up to 300 mm in diameter and 50 kg in weight to avoid damage or injury.
- Regularly check the stability and height adjustability of the screws to ensure safe working conditions.
- Ensure that the work area is adequately lit to reduce the risk of accidents.
- Make sure that nobody is standing under the work surface while the weight is being adjusted on the shelf.
- Ensure that all screws and connections are checked and tightened before use.
- Keep the area under the table free of obstacles to avoid tripping hazards.
