Please note the technical data of the products!

Article Numbers: 153929, 153928

Safety Instructions:

- Ensure that the product is stable and secure to prevent it from tipping over.
- Do not exceed the maximum load of 100 kg.
- During assembly and use, observe the working height of 850 mm to avoid ergonomic risks.
- Protective clothing is recommended to prevent injuries when handling heavy materials.
- Edges of the worktop are rounded; however, careful handling is advisable to avoid cuts.
- When lifting heavy objects, ensure correct posture and possibly additional support.
- The unwinding device may only be used for the specified maximum weights and diameters of the rollers.
- Keep the packing table away from naked flames and extreme temperatures.
- Ensure that all screws and connections are regularly checked and tightened.
- Use suitable personal protective equipment (PPE) when working.
- When using the unwinding device, ensure that no body parts get into the mechanism.
