Safety Instructions:

- Ensure that the load capacity of 150 kg is not exceeded. Overloading can lead to instability and tipping over.
- The product is not designed for use by children, therefore children should be kept away from the product.
- Make sure to use the castors and wheel brakes in accordance with the operating instructions to avoid tipping over. Avoid excessive speed and abrupt stops when pushing the trolley.
- Check the product regularly for damage or wear, especially the wheels and brakes. Ensure that the wheels and brakes are working properly before using the trolley.
- The operating instructions and safety instructions must be read before commissioning. Minimise risk by using the device in accordance with the instructions.
- Choking hazard due to small parts on swivel and fixed castors
- Risk of falling due to improper loading of the trolley.
