

Product Safety Information

ESD table trolley

Manufacturer/Responsible Person: fetra Fechtel Transportgeräte GmbH, Industriestraße 17-21, 33829 Borgholzhausen, Deutschland

E-Mail: info@fetra.de

Please note the technical data of the products!

Article Numbers: 97556, 97555

Safety Instructions:

- Product is electrically conductive, keep it away from water to avoid electric shocks.
- Ensure that the table trolley is placed on a stable surface to prevent it from tipping over.
- Do not exceed the maximum load capacity and load-bearing capacity according to specifications to avoid injury, damage or tipping over.
- Use suitable personal protective equipment (PPE) when transporting heavy objects.
- During assembly and disassembly, ensure that all parts are inserted correctly to avoid injury.
- Take particular care when moving the table trolley to avoid injury.
- When used on sensitive surfaces, non-slip pads are required to prevent scratches or damage.
- Warning: The table trolley is not intended for children.
- When connecting electrical devices to the table trolley, ensure that the electrical requirements are met in order to avoid the risk of electric shock.
