

Product Safety Information

Waste collector for data disposal, container D 3009

Please note the technical data of the products!

Article Numbers: 94630, 94629

Safety Instructions:

- Make sure that the container is not overfilled to prevent it from tipping over.
- Use the unloading area with care to avoid injury.
- Keep the container away from heat sources and aggressive chemicals.
- The use of hand gloves is recommended to avoid skin contact with potentially hazardous material.
- During transport or movement, ensure that the brake on the castors is activated.
- Observe the use of lever tension locks to ensure the safety of the contents.
- Small parts and sharp edges of the container can cause injuries; therefore handle with care.
- The insertion slot should not be overfilled in order to avoid endangering users.
- Ensure that the container is suitable for the intended area of use and is regularly checked for damage.
