Safety Instructions:

- Do not use the product near liquids as there is a risk of water and short circuits and it is not recommended for use in dusty or damp environments.
- Before installation, ensure that the product is securely and stably mounted on the wall and securely installed to prevent it from falling, being damaged or dropping.
- Children should be kept away from the box to avoid injury from sharp edges or heavy door openings. Be aware of sharp edges when opening the box to avoid injury.
- All electrical connections must be made by qualified personnel only, and cables and electrical connections must be routed properly to avoid electrical accidents or short circuits.
- The box may only be used for its intended purpose in order to avoid malfunctions.
- The box must be checked regularly for damage in order to minimise safety risks.
