Safety Instructions:

- Ensure that the product is safe for its intended use and does not pose a risk to the health and safety of consumers.
- The storage and transport conditions must not impair the safety of the product.
- Clear instructions and safety information in understandable language must be included.
- Monitoring product conformity and carrying out risk assessments before placing on the market.
- If changes are made to the product that may have an impact on safety, the relevant safety requirements must be reassessed.
- Ensure that the container is not overloaded during transport and that it is always placed on a stable surface to prevent it from tipping over.
- Use the spring-loaded handles safely to avoid injury.
- Keep the container away from hot material to prevent damage to the surface.
- When used outdoors, the container should be protected from direct sunlight to prevent discolouration of the decoration.
- Keep the container out of the reach of small children to minimise the risk of injury.
