Safety Instructions:

- The product is only suitable for its intended use and must be handled correctly to prevent damage.
- Ensure that the lock bolt is installed correctly to avoid safety risks and mechanical injuries due to improper installation.
- To protect against unauthorised access, the bolt should be used in combination with an appropriate padlock; if the lock is lost, obtain a new one immediately.
- Not suitable for children; it is recommended to prevent use by children.
- Only suitable for padlocks with a shackle thickness of 5-7 mm.
- When using a safety twist lock, ensure proper over-twist protection.
- Recognise and take into account possible hazards due to incorrect installation or use.
