## Projector table 9333

**Manufacturer/Responsible Person:** Jakob Maul GmbH, Jakob-Maul-Str. 17, 64732 Bad König, Deutschland

**E-Mail:** contact@maul.de

Please note the technical data of the products!

**Article Numbers:** 74953, 160203, 160202, 160201

### Safety Instructions:

- Observe the load capacity of the table top (approx. 30 kg) to ensure stability. Do not exceed the maximum load capacity of the table tops to avoid structural damage.
- Make sure that the castors are properly locked to prevent the table from rolling away unintentionally. Make sure that the castors are locked during use to prevent the table from tipping over. Risk of slipping due to improper use of the castors.
- Use the table according to the intended tilt setting (maximum 10°) to ensure safe handling.
- Ensure that the hinged side plate is only used when required and that it is properly fitted. Risk of suffocation from small parts, especially when fitting the hinged side plate.
- Electrical appliances should be used in accordance with the instructions in the integrated power strip. Caution when using the electrical socket: Ensure that the maximum permissible load capacity is not exceeded. Risk of electric shock if the integrated socket outlet is used without the appropriate safety precautions. Risk of electric shock due to improper use of the integrated socket outlet.
- The product is not suitable for children under 3 years of age due to small parts that could pose a choking hazard. Choking hazard due to small parts, especially if used incorrectly.
- Risk of injury due to improper height adjustment of the table.
- Please ensure that the table is correctly installed and stable to avoid accidents during use.
- The instructions for use and safety information must be provided in a language that consumers can understand.
- The product is designed to be safe under normal use. Any improper use may result in hazards.
