Article Numbers: 95996, 95995

Safety Instructions:

- Wear suitable personal protective equipment when using the steel bottle roller.
- Always secure the bottle with the chain lock and ensure that it is securely fastened to prevent it from slipping or tipping over.
- Do not exceed the maximum load capacity of 100 kg to ensure the stability of the trolley. The steel bottle trolley is only suitable for bottles with a maximum weight of 100 kg.
- Only use the trolley on level and firm surfaces to prevent it from tipping over.
- Regularly check the wheels and brackets for damage and ensure that they are in proper working order.
- Never place the bottle near sources of ignition or in hazardous environments.
- Keep the handles clean and dry to prevent slipping during handling.
- Avoid overloading the trolley to prevent structural damage and accidents.
- Read the enclosed operating instructions and safety instructions carefully.
- For safety during welding, use in well-ventilated areas.
