Article Numbers: 95402, 95401, 95400, 95399, 95398

Safety Instructions:

- Avoid overloading and observe the maximum load capacity.
- Only use the ladder on a stable, level surface.
- Ensure that all joints and connections are stable and intact before use.
- Do not use in windy or bad weather conditions.
- Use suitable non-slip shoes when climbing the ladder.
- Adults should supervise the use of ladders by children.
- Keep both hands free when climbing the ladder.
- Only one person should use the ladder at a time.
- Check for damage before use.
- Keep the area around the ladder clear of obstacles.
- Ensure that the ladder is unlocked.
- Second person recommended for safety.
- Follow the manufacturer's instructions.
- The ladder must not be used as a working platform.
- Take care when in close proximity to electrical cables.
- Do not use the top step.
- Keep the ladder out of the reach of children.
